Gray Painted Swedish Mora Grandfather Clock with Decorative Carvings, circa 1840

Swedish mora grandfather clocks are noted by their graceful curves and classic style as seen in this exceptional long case clock. Elaborate carving accents the body and face with sophisticated carved flourishes and garland.

The soft dove gray paint is lightly distressed, revealing the age and grace of this lovely clock.

The original clock required the commissioning of 3 professionals; the carpenter, painter and clock professional who designed the clockworks, face and hands.

Any original clock works remaining will be included with the long case but they are not in working condition.

The wood longcase is restored, solid and stable.

Any scratches, cracks, dings, or age related separation are reflective of age and do not detract from the beauty nor function of this lovely piece. Holes in the back were created when the original family secured the clock to a wall to create stability for the sensitive (original) clockworks.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
