Large Pine Chest of 9 Drawers, Sideboard Console, Denmark circa 1880

Fun and function combine in this pine chest of 9 drawers that likely originally served as a shop counter or storage cabinet. Counters similar to this were used throughout shops in European and are a great way to incorporate old world charm and craftsmanship into a modern home. While this counter is not free standing (see back in photos) the drawers make it a versatile sideboard, buffet, dresser, console or for craft/sewing room storage. This large pine chest of drawers is ready to be used as it has been restored and all drawers function.

Any scratches, cracks, dings, or age related separation are reflective of age and do not detract from the beauty nor function of this special accent table.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
