Antique Vintage French Door With Decorative Iron

This wonderful French door was originally used as an exterior door, but can easily be incorporated inside ones home today. The simple wrought-iron scrollwork decorated the area where glass panels once existed. Buyer may choose to add glass or keep an open, informal look depending on preference. At some point this door was stripped as you will see residual white paint throughout. These doors are part of our "un-restored" collection and are being sold in "as is, used" original condition; how we found them in Europe. You are welcome to contact us directly if you would like to learn more about this or other items, we will be happy to assist you further.
