Antique Norwegian Small Kubbestol, Child's Chair

A kubbestol is a traditional Scandinavian chair made from a log. This one is unusual, as it is rare to find one scaled small for a child. Every knot, crack, and sign of wear adds to the intriguing appeal of this hand-hewn stool. Notice in the photos the residual old green paint and old repairs which remain strong. This child's chair is solid/stable and sold as we found it in Europe. Please inquire if you have questions about this or other items in our collection. Seat height 14"
